- (1) The pro forma figures give effect to the sale by the Company of certain term promissory notes (the “*Term Notes*”) in the aggregate principal amount of \$941,176, which sales occurred on September 7, 2018. After recording \$141,176 of original issue discount and debt issuance costs of \$40,000, the Company received net cash proceeds in the aggregate amount of \$760,000 for the Term Notes. The original issue discount and debt issuance costs are recorded as a contra liability and will be amortized over the life of the Term Notes. The Term Notes have an original issue discount of fifteen percent (15%), bear interest at a rate of twelve percent (12%) per annum, and mature on the earlier to occur of (i) six months from September 7, 2018, or (ii) the consummation of a debt or equity financing resulting in gross proceeds to the Company of at least \$3.0 million. In connection with the issuance of the Term Notes, each purchaser also entered into a Subordination Agreement with the Company’s lenders, Heritage Bank of Commerce and Montage Capital II, L.P. (the “*Lenders*”), pursuant to which the purchasers agreed to subordinate (i) all of the Company’s indebtedness and obligations to the purchasers, whether presently existing or arising in the future, to all of the Company’s indebtedness the Lenders and (ii) all of the purchasers’ security interests, if any, to all of the Lenders’ security interests in property of the Company.
- (2) Pro forma as adjusted balance sheet data reflects the items described in footnote 1 and our sale of _____ shares of common stock in this offering at an assumed public offering price of \$ _____ per share, which was the last reported sale price of our common stock on the Nasdaq Capital Market on September _____, 2018, after deducting underwriting discounts and commissions and estimated offering expenses payable by us as well as the repayment of the Term Notes out of proceeds of the offering. Pro forma as adjusted balance sheet data is illustrative only and will change based on the actual public offering price and other terms of this offering determined at pricing. Each \$0.25 increase (decrease) in the combined public offering price per share would increase (decrease) the amount of cash and cash equivalents, working capital, total assets, and total stockholders’ equity by approximately \$ _____ million, assuming the number of securities offered by us, as set forth on the cover page of this prospectus, remains the same, and after deducting underwriting discounts and commissions, estimated offering expenses payable by us, and the amounts necessary to repay the Term Notes. We may also increase or decrease the number of securities to be issued in this offering. Each increase (decrease) of 1.0 million shares offered by us would increase (decrease) the as adjusted amount of cash and cash equivalents, working capital, total assets and total stockholders’ deficit by approximately \$ _____ million, assuming the assumed public offering price remains the same, and after deducting underwriting discounts and commissions, estimated offering expenses payable by us, and the amounts necessary to repay the Term Notes. The pro forma information discussed above is illustrative only and will be adjusted based on the actual public offering price and other terms of this offering determined between us and the underwriters at pricing.

RIS K FACTORS

An investment in our securities involves a high degree of risk. You should consider the risks, uncertainties and assumptions discussed below as well as all of the other information contained or incorporated by reference in this prospectus, including our Quarterly Reports on Form 10-Q for the quarters ended December 31, 2017, March 31, 2018 and June 30, 2018, and our Annual Report on Form 10-K for the fiscal year ended September 30, 2017. See “Incorporation of Certain Information by Reference” and “Where You Can Find More Information.” It is not possible to predict or identify all such risks. Consequently, we could also be affected by additional factors that are not presently known to us or that we currently consider to be immaterial to our operations. The occurrence of any of these known or unknown risks might cause you to lose all or part of your investment in the offered securities.

Risks Related to Our Business

We have incurred significant net losses since inception and expect continue to incur operating losses for the foreseeable future. We may never achieve or sustain profitability, which would depress the market price of our common stock and could cause you to lose all or a part of your investment.

We have incurred net losses in each fiscal year since our inception in 2000, including net losses of \$7.8 million and \$1.6 million during the fiscal years ended September 30, 2017 and 2016, respectively, and net losses of \$6.3 million and \$1.3 million during the nine months ended June 30, 2018 and 2017, respectively. As of September 30, 2017, we had an accumulated deficit of approximately \$54.3 million. We do not know whether or when we will become profitable. Substantially all of our operating losses have resulted from costs incurred in connection with our research and development programs and from general and administrative costs associated with our operations. Although we expect to incur decreasing levels of operating losses over the next several years due to the implementation of our restructuring plan, no assurances can be given. Our prior losses, combined with expected future losses, have had and will continue to have an adverse effect on our stockholders' equity (deficit) and working capital. Because of the numerous risks and uncertainties associated with our business, we are unable to predict the extent of any future losses or when we will become profitable, if at all. Even if we do become profitable, we may not be able to sustain or increase our profitability on a quarterly or annual basis.

Our debt obligations and operating lease commitments may adversely affect our financial condition and cash flows from operations.

We maintain a \$2.5 million line of credit with our bank, Heritage Bank of Commerce, as well as a non-revolving term loan for up to \$1.0 million through Montage Capital II, L.P., both of which are secured by all of our assets and intellectual property. Additionally, on September 7, 2018, we sold and issued Term Notes in the aggregate principal amount of \$941,176, which will mature on the earliest to occur of (i) six months from September 7, 2018, or (ii) the consummation of a debt or equity financing resulting in gross proceeds to the Company of at least \$3.0 million. Further, we have contractual commitments in operating lease arrangements, which are not reflected on our consolidated balance sheets. Our ability to meet our expenses and debt obligations will depend on our future performance, which will be affected by financial, business, economic, regulatory and other factors. We will not be able to control many of these factors, such as economic conditions and governmental regulations. Further, our operations may not generate sufficient cash to enable us to service our debt or contractual obligations resulting from our leases. If we fail to make a payment on our debt, we could be in default on such debt. If we are at any time unable to generate sufficient cash flows from operations to service our indebtedness when payment is due, we may be required to attempt to renegotiate the terms of the instruments relating to the indebtedness, seek to refinance all or a portion of the indebtedness or obtain additional financing. There can be no assurance that we would be able to successfully renegotiate such terms, that any such refinancing would be possible or that any additional financing could be obtained on terms that are favorable or acceptable to us.

Although as of June 30, 2018, we were in compliance with all financial covenants required pursuant to our borrowing facilities, we have failed to satisfy such covenants in the past. A failure to comply with the covenants and other provisions of our outstanding debt could result in events of default under such instruments, which could permit acceleration of all of our borrowings under our revolving credit facility as well as our non-revolving term loan. Any required repayment of our borrowing facilities as a result of a fundamental change or other acceleration would lower our current cash on hand such that we would not have those funds available for use in our business. In addition, in the event we do not have sufficient cash resources to repay our borrowings when due, we may be required to forfeit all or some of our assets to the banks as a result of their security interest in our assets, which would negatively impact our business, financial condition and future prospects, and we may not be able to continue as a going concern.

If we are unable to manage our future growth efficiently, our business, liquidity, revenues and profitability may suffer.

We anticipate that continued expansion of our core business will require us to address potential market opportunities. For example, we may need to expand the size of our research and development, sales, corporate finance or operations staff. There can be no assurance that our infrastructure will be sufficiently flexible and adaptable to manage our projected growth or that we will have sufficient resources, human or otherwise, to sustain such growth. If we are unable to adequately address these additional demands on our resources, our profitability and growth might suffer. Also, if we continue to expand our operations, management might not be effective in expanding our physical facilities and our systems, and our procedures or controls might not be adequate to support such expansion. Our inability to manage our growth could harm our business and decrease our revenues.

We may require additional financing to execute our business plan and further expand our operations.

We may require additional funding to further expand our operations. We currently have a borrowing facility with Heritage Bank from which we can borrow, and this line is subject to financial covenants that must be met. It is not certain that all or part of this line will be available to us in the future. In addition, we have received a term loan for up to \$1.0 million with Montage Capital II, L.P. We also depend on other sources of financing and this may not be available to us in a timely basis if at all, or on terms acceptable to us. Further, our ability to obtain financing may be limited by rules of the Nasdaq Capital Market. If we fail to obtain acceptable funding when needed, we may not have sufficient resources to fund our operations, and this would have a material adverse effect on our business.

Our revenue and quarterly results may fluctuate, which could adversely affect our stock price.

We have experienced, and may in the future experience, significant fluctuations in our quarterly operating results that may be caused by many factors. These factors include, amongst others:

- changes in demand for our products;
- introduction, enhancement or announcement of products by us or our competitors;
- market acceptance of our new products;
- the growth rates of certain market segments in which we compete;
- size and timing of significant orders;
- budgeting cycles of customers;
- mix of products and services sold;
- changes in the level of operating expenses;
- completion or announcement of acquisitions; and
- general economic conditions in regions in which we conduct business.

The length of our sales cycle can fluctuate significantly which could result in significant fluctuations in license revenues being recognized from quarter to quarter.

The decision by a customer to purchase our products often involves the development of a complex implementation plan across a customer's business. This process often requires a significant commitment of resources both by prospective customers and us. Given the significant investment and commitment of resources required in order to implement our software, it may take several months, or even several quarters, for marketing opportunities to materialize. If a customer's decision to purchase our products is delayed or if the installation of our products takes longer than originally anticipated, the date on which we may recognize revenue from these sales would be delayed. Such delays and fluctuations could cause our revenue to be lower than expected in a particular period and we may not be able to adjust our costs quickly enough to offset such lower revenue, potentially negatively impacting our results of operations.

We are dependent upon a small number of major customers, and a failure to renew our licenses with such customers could reduce our revenue.

During fiscal year 2017, two of our customers in aggregate accounted for 24% of total sales. Our customers have no obligation to renew their subscription licenses, and some customers have elected not to do so, including a number of our large customers in the recent two fiscal years. Our license renewal rates may decline or fluctuate as a result of a number of factors, including customer dissatisfaction with our products and services, our failure to update our products to maintain their attractiveness in the market, or constraints or changes in budget priorities faced by our customers. A decline in license renewal rates could cause our revenue to decline which would have a material adverse effect on our operations.

We face intense and growing competition, which could result in price reductions, reduced operating margins and loss of market share.

We operate in a highly competitive marketplace and generally encounter intense competition to create and maintain demand for our services and to obtain service contracts. If we are unable to successfully compete for new business and license renewals, our revenue growth and operating margins may decline. The market for our Bridgeline Unbound platform (Content Manager, Insights, eCommerce, Marketier, Social) and web development services are competitive and rapidly changing. Barriers to entry in such markets are relatively low. With the introduction of new technologies and market entrants, we expect competition to intensify in the future. Some of our principal competitors offer their products at a lower price, which have in the past and may in the future result in pricing pressures. Such pricing pressures and increased competition generally could result in reduced sales, reduced margins or the failure of our product and service offerings to achieve or maintain more widespread market acceptance.

The web development/services market is highly fragmented with a large number of competitors and potential competitors. Our prominent public company competitors are Big Commerce, Salesforce (Commerce Cloud), Episerver, Hubspot, Sitecore and Adobe (Experience Manager). We face competition from customers and potential customers who develop their own applications internally. We also face competition from potential competitors that are substantially larger than we are and who have significantly greater financial, technical and marketing resources, and established direct and indirect channels of distribution. As a result, they are able to devote greater resources to the development, promotion and sale of their products than we can.

There may be a limited market for our common stock, which may make it more difficult for you to sell your stock and which may reduce the market price of our common stock.

The average amount of shares traded per day for the eleven months ended August 31, 2018 was approximately 417,000 shares, compared to approximately 26,000 shares per day in fiscal 2017, 38,000 shares per day for fiscal 2016 and 3,000 shares per day for fiscal 2015. The average trading volume of our common stock can be sporadic and may impair the ability of holders of our common stock to sell their shares at the time they wish to sell them or at a price that they consider reasonable. A low trading volume may also reduce the fair market value of the shares of our common stock. Accordingly, there can be no assurance that the price of our common stock will reflect our actual value. There can be no assurance that the daily trading volume of our common stock will increase or improve either now or in the future.

The market price of our common stock is volatile, which could adversely affect your investment in our common stock.

The market price of our common stock is volatile and could fluctuate significantly for many reasons, including, without limitation, as a result of the occurrence of those risks discussed herein, actual or anticipated fluctuations in our operating results and general economic and industry conditions. During fiscal 2017 and the nine-months ended June 30, 2018, the closing price of our common stock as reported on the Nasdaq Capital Market fluctuated between \$2.12 and \$4.55, and between \$1.03 and \$3.50, respectively. We are required to meet certain financial criteria in order to maintain our listing on the Nasdaq Capital Market. One such requirement is that we maintain a minimum closing bid price of at least \$1.00 per share for our common stock. If we fail this requirement, then the Nasdaq Capital Market will issue a notice that we are not in compliance and we will need to take corrective actions in order to not be delisted. Such corrective actions could include a reverse stock split.

If our products fail to perform properly due to undetected errors or similar problems, our business could suffer, and we could face product liability exposure.

We develop and sell complex web engagement software, which may contain undetected errors or bugs. Such errors can be detected at any point in a product's life cycle, but are frequently found after introduction of new software or enhancements to existing software. We continually introduce new products and new versions of our products. Despite internal testing and testing by current and potential customers, our current and future products may contain serious defects. If we detect any errors before we ship a product, we might have to delay product shipment for an extended period of time while we address the problem. We might not discover software errors that affect our new or current products or enhancements until after they are deployed, and we may need to provide enhancements to correct such errors. Therefore, it is possible that, despite our testing, errors may occur in our software. These errors could result in the following:

- harm to our reputation;
- lost sales;
- delays in commercial release;
- product liability claims;
- contractual disputes;
- negative publicity;
- delays in or loss of market acceptance of our products;
- license terminations or renegotiations; or
- unexpected expenses and diversion of resources to remedy errors.

Furthermore, our customers may use our software together with products from other companies. As a result, when problems occur, it might be difficult to identify the source of the problem. Even when our software does not cause these problems, the existence of these errors might cause us to incur significant costs, divert the attention of our technical personnel from our product development efforts, impact our reputation, or cause significant customer relations problems.

Technology and customer requirements evolve rapidly in our industry, and if we do not continue to develop new products and enhance our existing products in response to these changes, our business could suffer.

We will need to continue to enhance our products in order to maintain our competitive position. We may not be successful in developing and marketing enhancements to our products on a timely basis, and any enhancements we develop may not adequately address the changing needs of the marketplace. Overlaying the risks associated with our existing products and enhancements are ongoing technological developments and rapid changes in customer requirements. Our future success will depend upon our ability to develop and introduce in a timely manner new products that take advantage of technological advances and respond to new customer requirements. The development of new products is increasingly complex and uncertain, which increases the risk of delays. We may not be successful in developing new products and incorporating new technology on a timely basis, and any new products may not adequately address the changing needs of the marketplace. Failure to develop new products and product enhancements that meet market needs in a timely manner could have a material adverse effect on our business, financial condition and operating results.

If we are unable to protect our proprietary technology and other intellectual property rights, our ability to compete in the marketplace may be substantially reduced.

If we are unable to protect our intellectual property, our competitors could use our intellectual property to market products similar to our products, which could decrease demand for such products, thus decreasing our revenue. We rely on a combination of copyright, trademark and trade secret laws, as well as licensing agreements, third-party non-disclosure agreements and other contractual measures to protect our intellectual property rights. These protections may not be adequate to prevent our competitors from copying or reverse-engineering our products. Our competitors may independently develop technologies that are substantially similar or superior to our technology. To protect our trade secrets and other proprietary information, we require employees, consultants, advisors and collaborators to enter into confidentiality agreements. These agreements may not provide meaningful protection for our trade secrets, know-how or other proprietary information in the event of any unauthorized use, misappropriation or disclosure of such trade secrets, know-how or other proprietary information. The protective mechanisms we include in our products may not be sufficient to prevent unauthorized copying. Existing copyright laws afford only limited protection for our intellectual property rights and may not protect such rights in the event competitors independently develop similar products. In addition, the laws of some countries in which our products are or may be licensed do not protect our products and intellectual property rights to the same extent as do the laws of the United States.

Policing unauthorized use of our products is difficult and litigation could become necessary in the future to enforce our intellectual property rights. Any litigation could be time consuming and expensive to prosecute or resolve, result in substantial diversion of management attention and resources, and materially harm our business or financial condition.

If a third party asserts that we infringe upon its proprietary rights, we could be required to redesign our products, pay significant royalties or enter into license agreements.

Claims of infringement are becoming increasingly common as the software industry develops and as related legal protections, including but not limited to patents, are applied to software products. Although we do not believe that our products infringe on the rights of third parties, a third party may assert that our technology or technologies of entities we acquire violates its intellectual property rights. As the number of software products in our markets increases and the functionality of these products further overlap, we believe that infringement claims will become more common. Any claims against us, regardless of their merit, could:

- be expensive and time consuming to defend;
- result in negative publicity;
- force us to stop licensing our products that incorporate the challenged intellectual property;
- require us to redesign our products;
- divert management's attention and our other resources; and/or
- require us to enter into royalty or licensing agreements in order to obtain the right to use necessary technologies, which may not be available on terms acceptable to us, if at all.

We believe that any successful challenge to our use of a trademark or domain name could substantially diminish our ability to conduct business in a particular market or jurisdiction and thus decrease our revenue and result in possible losses to our business.

We depend on a third-party cloud platform provider to host our Unbound SaaS environment and managed services business and if we were to experience a disruption in service, our business and reputation could suffer.

We host our SaaS and managed hosting customers via a third-party, Amazon Web Services. If upon renewal date our third-party provider does not provide commercially reasonable terms, we may be required to transfer our services to a new provider, such as data center facility, and we may incur significant equipment costs and possible service interruption in connection with doing so. Interruptions in our services might reduce our revenue, cause us to issue credits or refunds to customers, subject us to potential liability, or harm our renewal rates.

If our security measures or those of our third-party cloud computing platform provider are breached and unauthorized access is obtained to a customer's data, our services may be perceived as not being secure, and we may incur significant legal and financial exposure and liabilities.

Security breaches could expose us to a risk of loss of our customers' information, litigation and possible liability. While we have security measures in place, they may be breached as a result of third-party action, including intentional misconduct by computer hackers, employee error, malfeasance or otherwise and result in someone obtaining unauthorized access to our IT systems, our customers' data or our data, including our intellectual property and other confidential business information. Because the techniques used to obtain unauthorized access, or to sabotage systems, change frequently and generally are not recognized until launched against a target, we may be unable to implement adequate preventative measures. In addition, our customers may authorize third-party technology providers to access their customer data, and some of our customers may not have adequate security measures in place to protect their data that is stored on our services. Because we do not control our customers or third-party technology providers, or the processing of such data by third-party technology providers, we cannot ensure the integrity or security of such transmissions or processing. Malicious third parties may also conduct attacks designed to temporarily deny customers access to our services. Any security breach could result in a loss of confidence in the security of our services, damage our reputation, negatively impact our future sales, disrupt our business and lead to legal liability.

We rely on encryption and authentication technology from third parties to provide the security and authentication to effectively secure transmission of confidential information, including consumer payment card numbers. Such technology may not be sufficient to protect the transmission of such confidential information or these technologies may have material defects that may compromise the confidentiality or integrity of the transmitted data. Any imposition of liability, particularly liability that is not covered by insurance or is in excess of insurance coverage, could harm our reputation, business and operating results. We might be required to expend significant capital and other resources to protect further against security breaches or to rectify problems caused by any security breach, which, in turn could divert funds available for corporate growth and expansion or future acquisitions.

We are dependent upon our management team and the loss of any of these individuals could harm our business.

We are dependent on the efforts of our key management personnel. The loss of any of our key management personnel, or our inability to recruit and train additional key management and other personnel in a timely manner, could materially and adversely affect our business, operations and future prospects. We maintain a key man insurance policy covering our Chief Executive Officer.

Because competition for highly qualified personnel is intense, we might not be able to attract and retain the employees we need to support our planned growth.

We will need to increase the size and maintain the quality of our sales force, software development staff and professional services organization to execute our growth plans. To meet our objectives, we must attract and retain highly qualified personnel with specialized skill sets. Competition for qualified personnel can be intense, and we might not be successful in attracting and retaining them. Our ability to maintain and expand our sales, product development and professional services teams will depend on our ability to recruit, train and retain top quality people with advanced skills who understand sales to, and the specific needs of, our target customers. For these reasons, we have experienced, and we expect to again experience in the future, challenges in hiring and retaining highly skilled employees with appropriate qualifications for our business. In addition to hiring services personnel to meet our needs, we may also engage additional third-party consultants as contractors, which could have a negative impact on our financial results. If we are unable to hire or retain qualified personnel, or if newly hired personnel fail to develop the necessary skills or reach productivity slower than anticipated, it would be more difficult for us to sell our products and services, and we could experience a shortfall in revenue and not achieve our planned growth.

Future acquisitions may be difficult to integrate into our existing operations, may disrupt our business, dilute stockholder value, divert management’s attention, or negatively affect our operating results.

We have acquired multiple businesses since our inception in 2000. Future acquisitions could involve substantial investment of funds or financings by issuance of debt or equity securities and could result in one-time charges and expenses and have the potential to either dilute the interests of existing stockholders or result in the issuance of or assumption of debt. Any such acquisition may not be successful in generating revenues, income or other returns to us, and the resources committed to such activities will not be available to us for other purposes. Moreover, if we are unable to access capital markets on acceptable terms or at all, we may not be able to consummate acquisitions, or may have to do so based upon less than optimal capital structure. Our inability to take advantage of growth opportunities for our business or to address risks associated with acquisitions or investments in businesses may negatively affect our operating results. Additionally, any impairment of goodwill or other intangible assets acquired in an acquisition or in an investment, or charges to earnings associated with any acquisition or investment activity, may materially reduce our earnings which, in turn, may have an adverse material effect on the price of our common stock.

We are also subject to anti-takeover provisions under Delaware law, which could delay or prevent a change of control. Together these provisions may make the removal of management more difficult and may discourage transactions that otherwise could involve payment of a premium over prevailing market prices for our securities. Provisions in our amended and restated bylaws and Delaware law may have the effect of discouraging lawsuits against our directors and officers.

Our amended and restated bylaws require that derivative actions brought in our name, actions against our directors, officers, other employees or stockholders for breach of fiduciary duty and other similar actions may be brought only in the Court of Chancery in the State of Delaware. Any person or entity purchasing or otherwise acquiring any interest in shares of our capital stock shall be deemed to have notice of and consented to the forum provisions in our amended and restated bylaws.

This choice of forum provision may limit a stockholder’s ability to bring a claim in a judicial forum that it finds favorable for disputes with us or any of our directors, officers, other employees or stockholders, which may discourage lawsuits with respect to such claims. Alternatively, if a court were to find the choice of forum provision contained in our amended and restated bylaws to be inapplicable or unenforceable in an action, we may incur additional costs associated with resolving such action in other jurisdictions, which could harm our business, operating results and financial condition.

Increasing government regulation could affect our business and may adversely affect our financial condition.

We are subject not only to regulations applicable to businesses generally, but also to laws and regulations directly applicable to electronic commerce. In addition, an inability to satisfy the standards of certain voluntary third-party certification bodies that our customers may expect, such as an attestation of compliance with the Payment Card Industry (“PCI”) Data Security Standards, may have an adverse impact on our business and results. Further, there are various statutes, regulations, and rulings relevant to the direct email marketing and text-messaging industries, including the Telephone Consumer Protection Act (“TCPA”), the CAN-SPAM Act and related Federal Communication Commission (“FCC”) orders. The interpretation of many of these statutes, regulations, and rulings is evolving in the courts and administrative agencies and an inability to comply may have an adverse impact on our business and results. If in the future we are unable to achieve or maintain industry-specific certifications or other requirements or standards relevant to our customers, it may harm our business and adversely affect our results.

We may also expand our business in countries that have more stringent data protection laws than those in the United States, and such laws may be inconsistent across jurisdictions and are subject to evolving and differing interpretations. In particular, the European Union has passed the General Data Protection Regulation (“GDPR”), which came into force on May 25, 2018. The GDPR includes more stringent operational requirements for entities that receive or process personal data (as compared to U.S. privacy laws and previous EU laws), along with significant penalties for non-compliance, more robust obligations on data processors and data controllers, greater rights for data subjects, and heavier documentation requirements for data protection compliance programs. Additionally, both laws regulating privacy and third-party products purporting to address privacy concerns could negatively affect the functionality of, and demand for, our products and services, thereby reducing our revenue.

Federal, state, and foreign governments may adopt laws and regulations applicable to our business. Any such legislation or regulation could dampen the growth of the Internet and decrease its acceptance. If such a decline occurs, companies may choose in the future not to use our products and services. Any new laws or regulations in the following areas could affect our business:

- user privacy;
- the pricing and taxation of goods and services offered over the Internet;
- the content of websites;
- trademarks and copyrights;
- consumer protection, including the potential application of “do not call” registry requirements on customers and consumer backlash in general to direct marketing efforts of customers;
- the online distribution of specific material or content over the Internet; or
- the characteristics and quality of products and services offered over the Internet.

We have issued preferred stock with rights senior to our common stock, and may issue additional preferred stock in the future, in order to consummate a merger or other transaction necessary to continue as a going concern.

Our Certificate of Incorporation authorizes the issuance of up to 1.0 million shares of preferred stock, par value \$0.001 per share, without shareholder approval and on terms established by our board of directors, of which 264,000 shares have been designated as Series A Preferred. We may issue additional shares of preferred stock in order to consummate a financing or other transaction, in lieu of the issuance of common stock. The rights and preferences of any such class or series of preferred stock would be established by our board of directors in its sole discretion and may have dividend, voting, liquidation and other rights and preferences that are senior to the rights of our common stock.

We have never paid dividends on our common stock, and we do not anticipate paying dividends on our common stock in the future.

We have never paid cash dividends on our common stock, and do not believe that we will pay any cash dividends on our common stock in the future. Because we have no plan to pay cash dividends on our common stock, an investor would only realize income from his investment in our shares if there is a rise in the market price of our common stock, which is uncertain and unpredictable.

Risks Related to this Offering

Our management team may invest or spend the proceeds of this offering in ways with which you may not agree or in ways which may not yield a significant return .

Our management will have broad discretion over the use of proceeds from this offering. We currently intend to use the net proceeds from the sale of securities offered by this prospectus for general corporate purposes, including, but not limited to, research and development, capital expenditures, repayment of indebtedness, and additions to working capital. We may also use the net proceeds from the sale of the securities under this prospectus to acquire or invest in complementary businesses, technologies, products or assets. However, our management will have broad discretion in the application of the net proceeds from this offering and could spend the proceeds in ways that do not improve our results of operations or enhance the value of our common stock. The failure by management to apply these funds effectively could result in financial losses that could have a material adverse effect on our business, cause the price of our common stock to decline and delay the development of our product candidates.

Purchasers in this offering will experience immediate and substantial dilution in the book value of their investment.

Because the public offering price per share is substantially higher than the book value per share of our common stock, you will suffer substantial dilution in the net tangible book value of the common stock you purchase in this offering. After giving effect to the sale by us of _____ shares of our common stock at a public offering price of \$ _____ per share, and after deducting the underwriting discount and estimated offering expenses payable by us, you will suffer immediate and substantial dilution of \$ _____ per share in the net tangible book value of the common stock you purchase in this offering. To the extent outstanding options, warrants or other derivative securities are ultimately exercised or converted, or if we issue equity-based awards to our employees under our 2016 Plan, there will be further dilution to investors who purchase shares in this offering. In addition, if we issue additional equity securities or derivative securities, investors purchasing shares in this offering will experience additional dilution. For a further description of the dilution that you will experience immediately after this offering, see “ *Dilution* ” on page 21.

Sales of a substantial number of shares of our common stock, or the perception that such sales may occur, may adversely impact the price of our common stock .

Sales of a substantial number of shares of our common stock in the public market could occur at any time. These sales, or the perception that such sales may occur, may adversely impact the price of our common stock, even if there is no relationship between such sales and the performance of our business. As of September 18, 2018, we had 4,241,225 shares of common stock outstanding, as well as stock options to purchase an aggregate of 459,846 shares of our common stock at a weighted average exercise price of \$6.81 per share, outstanding warrants to purchase up to an aggregate of 584,308 shares of our common stock at a weighted average exercise price of \$6.58 per share and 161,455 shares of common stock issuable upon conversion of our outstanding shares of Series A Preferred. The

exercise and/or conversion of such outstanding derivative securities may result in further dilution of your investment.

USE OF PROCEEDS

We estimate that the net proceeds to us from the sale of shares of our common stock by us in this offering will be approximately \$ million, or approximately \$ million if the underwriters exercise in full their option to purchase additional shares of common stock to cover over-allotments, if any, assuming the sale of shares of common stock at an assumed public offering price of \$ per share (the last reported sale price of our common stock on the Nasdaq Capital Market on September 11, 2018), in each case, after deducting the estimated underwriting discount, estimated offering expenses payable by us, and the amounts necessary to repay the Term Notes (as set forth below).

Each \$0.25 increase (decrease) in the assumed public offering price of \$ per share would increase (decrease) the net proceeds to us from this offering by approximately \$ million, assuming the number of shares offered by us, as set forth on the cover page of this prospectus, remains the same and after deducting the estimated underwriting discount, estimated offering expenses payable by us, and the amounts necessary to repay the Term Notes. We may also increase or decrease the number of shares of common stock we are offering. Each increase (decrease) of 1,000,000 shares in the number of shares of common stock we are offering would increase (decrease) the net proceeds to us from this offering by approximately \$ million, assuming that the assumed public offering price remains the same, and after deducting the estimated underwriting discount, estimated offering expenses payable by us, and the amounts necessary to repay the Term Notes. This information is illustrative only, and we will adjust this information based on the actual public offering price and other terms of this offering determined at pricing. We do not expect that a change in the public offering price or the number of shares by these amounts would have a material effect on our intended uses of the net proceeds from this offering, although it may impact the amount of time prior to which we may need to seek additional capital.

On September 7, 2018, we entered into a Note Purchase Agreement (the “*Purchase Agreement*”) with certain accredited investors (each, a “*Purchaser*”), pursuant to which we sold and issued to the Purchasers Term Notes in the aggregate principal amount of \$941,176, which Term Notes have an original issue discount of fifteen percent (15%), bear interest at a rate of twelve percent (12%) per annum, and have a maturity date of the earlier to occur of (a) six months from the date of execution of the Purchase Agreement, or (b) the consummation of a debt or equity financing resulting in the gross proceeds to the Company of at least \$3.0 million. We received net cash proceeds in the aggregate amount of \$760,000 through the sale of the Term Notes, after subtracting the original issue discount and debt issuance costs, which proceeds it has used as general working capital. Upon consummation of this offering, assuming that we receive gross proceeds in an amount exceeding \$3.0 million, we intend to allocate approximately \$941,176, plus any accrued interest, to the repayment of the Term Notes.

We expect to use the remaining net proceeds from this offering for general corporate purposes including, but not limited to, research and development, capital expenditures, repayment of indebtedness, and additions to working capital. We may also use a portion of the net proceeds from this offering to pursue potential strategic acquisitions, although we do not have any specific plans or arrangements to do so at this time. We cannot currently allocate specific percentages of the net proceeds that we may use for the purposes specified above.

Pending other uses, we intend to invest our proceeds from the offering in short-term investments or hold them as cash. We cannot predict whether the proceeds invested, if any, will yield a favorable return. Our management will have broad discretion in the use of the net proceeds from the offering, and investors will be relying on the judgment of our management regarding the application of the net proceeds.

MARKET PRICE OF OUR COMMON STOCK**Market Information**

Our common stock is listed on the Nasdaq Capital Market under the symbol “BLIN.”

On September 18, 2018, the closing price for our common stock as reported on the Nasdaq Capital Market was \$1.02 per share. The pro forma and pro forma as adjusted information below is illustrative only, and our capitalization following the closing of this offering will be adjusted based on the actual public offering price and other terms of this offering determined at pricing as well as our actual expenses. - (1) The pro forma figures give effect to the sale by the Company of certain term promissory notes (the “*Term Notes*”) in the aggregate principal amount of \$941,176, which sales occurred on September 7, 2018. After recording \$141,176 of original issue discount and debt issuance costs of \$40,000, the Company received net cash proceeds in the aggregate amount of \$760,000 for the Term Notes. The original issue discount and debt issuance costs are recorded as a contra liability and will be amortized over the life of the Term Notes. The Term Notes have an original issue discount of fifteen percent (15%), bear interest at a rate of twelve percent (12%) per annum, and mature on the earlier to occur of (i) six months from September 7, 2018, or (ii) the consummation of a debt or equity financing resulting in gross proceeds to the Company of at least \$3.0 million. In connection with the issuance of the Term Notes, each purchaser also entered into a Subordination Agreement with the Company’s lenders, Heritage Bank of Commerce and Montage Capital II, L.P. (the “*Lenders*”), pursuant to which the purchasers agreed to subordinate (i) all of the Company’s indebtedness and obligations to the purchasers, whether presently existing or arising in the future, to all of the Company’s indebtedness the Lenders and (ii) all of the purchasers’ security interests, if any, to all of the Lenders’ security interests in property of the Company.
- (2) Each \$0.25 increase (decrease) in the assumed public offering price per share would increase (decrease) the amount of cash and cash equivalents, working capital, total assets, and total stockholders’ deficit by approximately \$ million, assuming the number of securities offered by us, as set forth on the cover page of this prospectus, remains the same, and after deducting underwriting discounts and commissions, estimated offering expenses payable by us, and the amounts necessary to repay the Term Notes. We may also increase or decrease the number of securities to be issued in this offering. Each increase (decrease) of 1.0 million shares offered by us would increase (decrease) the as adjusted amount of cash and cash equivalents, working capital, total assets and total stockholders’ deficit by approximately \$ million, assuming the assumed public offering price remains the same, and after deducting underwriting discounts and commissions, estimated offering expenses payable by us, and the amounts necessary to repay the Term Notes. The pro forma information discussed above is illustrative only and will be adjusted based on the actual public offering price and other terms of this offering determined between us and the underwriters at pricing.

The number of shares of our common stock that will be outstanding immediately after the offering is based on 4,241,225 shares outstanding as of June 30, 2018. Unless we specifically state otherwise, the share information in this prospectus excludes:

- 459,846 shares of our common stock issuable upon the exercise of stock options outstanding at a weighted-average exercise price of \$6.81 per share;
- 584,308 shares of common stock issuable upon the exercise of warrants at a weighted-average exercise price of \$6.58 per share;
- 260,534 shares of common stock reserved for future issuance under our 2016 Plan; and
- 161,455 shares of common stock issuable upon conversion of 262,364 outstanding shares of Series A Preferred; and
- shares of common stock issuable upon the exercise of the Representative’s Warrants to be issued to the representative of the underwriters.

The above numbers reflect the 1-for-5 stock split effectuated by the Company on July 24, 2017.

DILUTION

If you invest in our common stock in this offering, your interest will be diluted immediately to the extent of the difference between the public offering price per share and the adjusted net tangible book value (deficit) per share of our common stock after this offering. Net tangible book value (deficit) per share of our common stock is determined at any date by subtracting our total liabilities from the amount of our total tangible assets (total assets less intangible assets) and dividing the difference by the number of shares of our common stock deemed to be outstanding at that date. Dilution in net tangible book value (deficit) per share represents the difference between the amount per share paid by investors in this offering and the net tangible book value (deficit) per share of our common stock immediately after this offering.

Our historical net tangible book value (deficit) as of June 30, 2018 was approximately \$(2.7) million, or \$(0.65) per share. Our historical net tangible book value (deficit) per share represents our total tangible assets less our total liabilities, divided by the number of shares of common stock outstanding as of June 30, 2018.

Our pro forma net tangible book value (deficit) as of June 30, 2018 was approximately \$(2.7) million, or \$(0.65) per share of common stock. Pro forma net tangible book value (deficit) per share represents our total tangible assets less our total liabilities, divided by the number of shares of common stock outstanding as of June 30, 2018, after giving effect to giving effect to the sale by us of the Term Notes in the aggregate principal amount of \$941,176, which sales occurred on September 7, 2018, and for which we received cash proceeds in the aggregate amount of \$760,000 after subtracting the original issue discount and debt issuance costs. After further giving effect to (i) the pro forma adjustment described above, (ii) the repayment of the Term Notes upon consummation of the offering, and (iii) the sale of shares of our common stock in this offering at the assumed public offering price of \$ per share, which was the last reported sale price of our common stock on the Nasdaq Capital Market, and after deducting the underwriting discounts and commissions and estimated offering expenses payable by us, our as adjusted net tangible book value as of June 30, 2018 would have been approximately \$ million, or \$ per share. This represents an immediate increase in net tangible book value of \$ per share to existing stockholders and immediate dilution in net tangible book value of \$ per share to investors in this offering. The following table illustrates this dilution on a per share basis:

Assumed public offering price per share		\$
Historical net tangible book value (deficit) per share as of June 30, 2018	\$ (0.65))
Pro forma increase in net tangible book value per share attributable to the sale of term notes described above	-)
Pro forma net tangible book value per share as of June 30, 2018	(0.65))
Increase in pro forma net tangible book value (value) per share attributable to investors purchasing shares from us in this offering	\$ -)
Pro forma as-adjusted net tangible book value per share after this offering		\$
Dilution in pro forma as adjusted net tangible book value per share to new investors in this offering		\$

If the underwriters exercise in full their option to purchase additional shares of our common stock at the public offering price of \$ per share, our as adjusted net tangible book value would be approximately \$ per share, an increase of approximately \$ per share to existing stockholders and an immediate dilution of approximately \$ per share to new investors purchasing shares of our common stock in this offering, after deducting the underwriting discount and estimated offering expenses payable by us.

The number of shares of common stock to be outstanding after this offering is based on 4,241,225 shares outstanding as of June 30, 2018, and excludes:

- 459,846 shares of our common stock issuable upon the exercise of stock options outstanding at a weighted-average exercise price of \$6.81 per share;
- 584,308 shares of common stock issuable upon the exercise of warrants at a weighted-average exercise price of \$6.58 per share;
- 260,534 shares of Common Stock reserved for future issuance under our 2016 Plan;
- 161,455 shares of common stock issuable upon conversion of 262,364 outstanding shares of Series A Preferred; and
- shares of common stock issuable upon the exercise of the Representative's Warrants to be issued to the representative of the underwriters.

If the underwriters exercise their option to purchase additional shares in full, the percentage of shares of common stock held by existing stockholders will decrease to approximately % of the total number of shares of our common stock outstanding after this offering, and the number of shares held by new investors will increase to , or approximately % of the total number of shares of common stock outstanding after the offering.

To the extent that outstanding options or warrants are exercised, or our lines of credit or outstanding shares of Series A Preferred are converted into shares of common stock, investors in this offering will experience further dilution. In addition, we may choose to raise additional capital due to market conditions or strategic considerations even if we believe we have sufficient funds for our current or future operating plans. To the extent that additional capital is raised through the sale of equity or convertible debt securities, the issuance of these securities could result in further dilution to our stockholders.

Common Stock

Except as otherwise expressly provided in our Charter, or as required by applicable law, all shares of our common stock have the same rights and privileges and rank equally, share ratably and are identical in all respects as to all matters, including, without limitation, those described below. All outstanding shares of common stock are fully paid and nonassessable.

Voting Rights. The holders of common stock are entitled to one vote per share on all matters. The common stock does not have cumulative voting rights, which means that holders of the shares of common stock with a majority of the votes to be cast for the election of directors can elect all directors then being elected.

Dividends. Each share of common stock has an equal and ratably right to receive dividends to be paid from our assets legally available therefore when, as and if declared by our Board of Directors. We have never declared or paid cash dividends on our common stock, and we do not anticipate paying cash dividends on our common stock in the foreseeable future.

Liquidation. In the event we dissolve, liquidate or wind up, the holders of common stock are entitled to share equally and ratably in the assets available for distribution after payments are made to our creditors and to the holders of any outstanding preferred stock we may designate and issue in the future with liquidation preferences greater than those of the common stock.

Other. The holders of shares of our common stock have no preemptive, subscription or redemption rights and are not liable for further call or assessment. All of the outstanding shares of common stock are, and the shares of common stock offered hereby will be, fully paid and nonassessable.

Transfer Agent and Registrar

The transfer agent and registrar for our common stock is the American Stock Transfer & Trust Company, LLC.

Preferred Stock

We are authorized, subject to limitations prescribed by Delaware law and our Charter, to issue up to 1.0 million shares of preferred stock in one or more series, to establish from time to time the number of shares to be included in each series and to fix the designation, powers, preferences and rights of the shares of each series and any of its qualifications, limitations or restrictions. Our Board of Directors can increase or decrease the number of shares of any series, but not below the number of shares of that series then outstanding, without any further vote or action by our stockholders. Our Board of Directors may authorize the issuance of preferred stock with voting or conversion rights that could adversely affect the voting power or other rights of the holders of the common stock. The issuance of preferred stock, while providing flexibility in connection with possible acquisitions and other corporate purposes, could, among other things, have the effect of delaying, deferring or preventing a change in control of the Company and may adversely affect the market price of our common stock and the voting and other rights of the holders of our common stock.

Series A Preferred

In October 2014, our Board of Directors authorized the creation of a series of up to 264,000 shares of Series A Preferred. The Certificate of Designation of Preferences, Rights and Limitations of the Series A Convertible Preferred was filed with the Delaware Secretary of State on October 28, 2014. As of September 18, 2018, there were 264,000 shares of Series A Preferred issued and 262,364 shares of Series Preferred outstanding.

As of September 18, 2018, an aggregate total of 1,636 shares of Series A Preferred have been converted into 1,007 shares of common stock. There will be no further issuances of Series A Preferred.

Voting Rights. Shares of Series A Preferred vote on an as-converted basis along with shares of our common stock.

Conversion. Shares of Series A Preferred may be converted, at the option of the holder, at any time into such number of shares of our common stock (“*Conversion Shares*”) equal (i) to the number of shares of Series A Preferred to be converted, multiplied by the stated value of \$10.00 per share (the “*Stated Value*”) and (ii) divided by the conversion price in effect at the time of conversion, currently \$16.25.

Any accrued but unpaid dividends on the shares of Series A Preferred to be converted shall also be converted in shares of our common stock at the Conversion Price. We also have the right to require the holders to convert shares of Series A Preferred into Conversion Shares if (i) the Company’s common stock has closed at or above \$32.50 per share for ten consecutive trading days and (ii) the Conversion Shares are (A) registered for resale on an effective registration statement or (B) may be resold pursuant to Rule 144.

Dividends. Cumulative dividends are currently payable in cash at a rate of 12% per year. The Series A Preferred is senior to our common stock and any other stock with respect to dividends rights.

Liquidation. In the event of any liquidation, dissolution, or winding up of the Company, the holders of shares of Series A Preferred will be entitled to receive in preference to the holders of common stock and any other stock, the amount equal to the Stated Value per share of Series A Preferred plus declared and unpaid dividends, if any. After such payment has been made, the remaining assets of the Company will be distributed ratably to the holders of common stock.

Anti-Takeover Effects of Certain Provisions of Delaware Law and of the Company's Certificate of Incorporation and Bylaws

Delaware Law

We are subject to Section 203 of the Delaware General Corporation Law (the “*DGCL*”) (“*Section 203*”). In general, Section 203 prohibits a publicly held Delaware corporation from engaging in “business combination” transactions with any “interested stockholder” for a period of three years following the time that the stockholder became an interested stockholder, unless:

- prior to the time the stockholder became an interested stockholder, either the applicable business combination or the transaction which resulted in the stockholder becoming an interested stockholder is approved by the corporation’s board of directors;
- upon consummation of the transaction which resulted in the stockholder becoming an interested stockholder, the interested stockholder owned at least 85% of the voting stock of the corporation outstanding at the time the transaction commenced, excluding for purposes of determining the voting stock outstanding (but not the voting stock owned by the interested stockholder) shares owned by directors who are also officers of the corporation and shares owned by employee stock plans in which the employee participants do not have the right to determine confidentially whether shares held subject to the plan will be tendered in a tender or exchange offer; or
- at or subsequent to the time that the stockholder became an interested stockholder, the business combination is approved by the corporation’s board of directors and authorized at an annual or special meeting of stockholders by the affirmative vote of at least 66 2/3% of the outstanding voting stock which is not owned by the interested stockholder.

A “business combination” is defined to include, in general and subject to exceptions, a merger of the corporation with the interested stockholder; a sale of 10% or more of the market value of the corporation’s consolidated assets to the interested stockholder; certain transactions that result in the issuance of the corporation’s stock to the interested stockholder; a transaction that has the effect of increasing the proportionate share of the corporation’s stock owned by the interested stockholder; and any receipt by the interested stockholder of loans, guarantees or other financial benefits provided by the corporation. An “interested stockholder” is defined to include, in general and subject to exceptions, a person that (1) owns 15% or more of the outstanding voting stock of the corporation or (2) is an “affiliate” or “associate” (as defined in Section 203) of the corporation and was the owner of 15% or more of the corporation’s outstanding voting stock at any time within the prior three year period.

A Delaware corporation may opt out of Section 203 with an express provision in its original certificate of incorporation or by an amendment to its certificate of incorporation or bylaws expressly electing not to be governed by Section 203 and approved by a majority of its outstanding voting shares. We have not opted out of Section 203. As a result, Section 203 could delay, deter or prevent a merger, change of control or other takeover of our company that our stockholders might consider to be in their best interests, including transactions that might result in a premium being paid over the market price of our common stock, and may also limit the price that investors are willing to pay in the future for our common stock.

Undesignated Preferred Stock

The ability to authorize undesignated preferred stock makes it possible for our Board of Directors to issue one or more series of preferred stock with voting or other rights or preferences. These and other provisions may have the effect of deferring hostile takeovers or delaying changes in control or management of our company.

Requirements for Advance Notification of Stockholder Nominations and Proposals

Our Bylaws establish advance notice procedures with respect to stockholder proposals and the nomination of candidates for election as directors, other than nominations made by or at the direction of the Board of Directors or a committee of the Board of Directors.

Stockholder Action by Written Consent; Special Meetings of Stockholders

Our Bylaws prohibit our stockholders from taking action by written consent in lieu of a meeting.

Amendment of Certificate of Incorporation and Bylaws

Our Charter may be amended by the affirmative vote of a majority of the aggregate number of shares of each class of our capital stock issued and outstanding after a resolution of our Board of Directors declaring the advisability of such amendment has been adopted in accordance with Delaware law. Our Bylaws may be amended by the affirmative vote of a majority of the aggregate number of shares of each class of our capital stock issued and outstanding (and entitled to vote on the subject matter) present in person or represented by proxy at a meeting of stockholders provided that notice thereof is stated in the written notice of the meeting. Our Bylaws may also be amended by a majority of the Board of Directors in accordance with Delaware law and our Charter.

SECURITY OWNER S HIP OF CERTAIN BENEFICIAL OWNERS AND MANAGEMENT

Beneficial ownership is determined in accordance with Rule 13d-3 under the Exchange Act. In computing the number of shares beneficially owned by a person or a group and the percentage ownership of that person or group, shares of our common stock subject to options or warrants currently exercisable or exercisable within 60 days after September 18, 2018 are deemed outstanding, but are not deemed outstanding for the purpose of computing the percentage ownership of any other person. Unless otherwise indicated, the address of each individual named below is our address, 80 Blanchard Road, Burlington, Massachusetts 01803.

The following tables set forth, as of September 18, 2018, the beneficial ownership of our Series A Preferred and common stock by (i) each person or group of persons known to us to beneficially own more than 5% of the outstanding shares of the outstanding securities, (ii) each of our directors and named executive officers, and (iii) all of our executive officers and directors as a group. At the close of business on September 18, 2018 there were 262,354 shares of Series A Preferred and 4,241,255 shares of our common stock issued and outstanding.

Except as indicated in the footnotes to the tables below, each stockholder named in the table has sole voting and investment power with respect to the shares shown as beneficially owned by such stockholder.

This information is based upon information received from or on behalf of the individuals named herein.

The underwriters may exercise this option only to cover over-allotments made in connection with this offering. If the underwriters exercise this option in whole or in part, then the underwriters will be severally committed, subject to the conditions described in the underwriting agreement, to purchase these additional shares of common stock. If any additional shares of common stock are purchased, the underwriters will offer the additional shares of common stock on the same terms as those on which the shares of common stock are being offered hereby.

Discounts and Commissions

The Representative has advised us that the underwriters propose to offer the shares of common stock to the public at the public offering price per share set forth on the cover page of this prospectus. The underwriters may offer shares to securities dealers at that price less a concession of not more than \$ _____ per share, of which up to \$ _____ per share may be re-allowed to other dealers.

Table of Contents

The following table summarizes the public offering price, underwriting discounts and commissions and proceeds before expenses to us assuming both no exercise and full exercise by the underwriters of their over-allotment option:

	<u>Per Share</u>	<u>Total Without Over- allotment Option</u>	<u>Total With Over- allotment Option</u>
Public offering price	\$	\$	\$
Underwriting discounts and commissions (7%)	\$	\$	\$
Non-accountable expense allowance (1%) ⁽¹⁾	\$	\$	\$
Proceeds, before expenses, to us	\$	\$	\$

(1) We have agreed to pay a non-accountable expense allowance to the Representative equal to 1% of the gross proceeds received in this offering

We have paid an expense deposit of \$20,000 to the Representative, which will be applied against the out-of-pocket accountable expenses that will be paid by us to the underwriters in connection with this offering, and will be reimbursed to us to the extent not incurred.

In addition, we have also agreed to reimburse the Representative for all reasonable out-of-pocket accountable fees and costs incurred in connection with this offering; provided that in no event shall we be obligated to reimburse the Representative more than \$90,000 in the aggregate for such fees, expenses and costs, which may include: (a) fees and expenses of counsel to the underwriters; (b) all filing fees and communication expenses relating to the registration of the shares of common stock to be sold in this offering with the SEC; (c) all filing fees and expenses associated with the review of this offering by FINRA and the Nasdaq Stock Market; and (d) any other reasonable out-of-pocket accountable expenses incurred by the Representative in connection with the performance of its services in this offering.

We estimate the expenses of this offering payable by us, not including underwriting discounts and commissions, will be approximately \$.

Discretionary Accounts

The underwriters do not intend to confirm sales of the securities offered hereby to any accounts over which they have discretionary authority.

Representatives' Warrants

Upon closing of this offering, we have agreed to issue to the Representative, as compensation, warrants to purchase a number of shares of common stock equal to 5% of the aggregate number of shares of common stock sold in this offering (the "*Representative's Warrants*"). The Representative's Warrants will be exercisable at a per share exercise price equal to the greater of (i) 125% of the public offering price per share in this offering and (ii) the closing price of our common stock on the closing date of this offering, as reported by the Nasdaq Capital Market. The Representative's Warrants are exercisable at any time and from time to time, in whole or in part, commencing on the date that is 180 days following the effective date of the registration statement of which this prospectus is a part and expiring on the date that is five (5) years following the effective date of the registration statement.

The Representative's Warrants have been deemed compensation by FINRA and are therefore subject to a 180-day lock-up pursuant to Rule 5110(g)(1) of FINRA. The Representative (or permitted assignees under Rule 5110(g)(1)) will not sell, transfer, assign, pledge, or hypothecate these warrants or the securities underlying these warrants, nor will they engage in any hedging, short sale, derivative, put, or call transaction that would result in the effective economic disposition of the warrants or the underlying securities for a period of 180 days from the effective date of this registration statement. In addition, the warrants provide for registration rights upon request, in certain cases. The demand registration right provided will not be greater than five years from the effective date of this registration statement in compliance with FINRA Rule 5110(f)(2)(G)(iv). The piggyback registration right provided will not be greater than seven years from the effective date of this registration statement in compliance with FINRA Rule 5110(f)(2)(G)(v). We will bear all fees and expenses attendant to registering the securities issuable on exercise of the warrants other than underwriting commissions incurred and payable by the holders. The exercise price and number of shares issuable upon exercise of the warrants may be adjusted in certain circumstances including in the event of a stock dividend or our recapitalization, reorganization, merger or consolidation. However, the warrant exercise price or underlying shares will not be adjusted for issuances of shares of common stock at a price below the warrant exercise price.

Right of First Refusal

Until six (6) months after the closing date of this offering, the Representative will have, subject to certain exceptions, an irrevocable right of first refusal to act as sole investment banker, sole book-runner and/or sole placement agent, at the Representative's discretion, for each and every future public equity offering for us, or any successor to or any subsidiary of us, on terms customary for the Representative. The Representative will have the sole right to determine whether or not any other broker-dealer shall have the right to participate in any such offering and the economic terms of any such participation. The Representative will not have more than one opportunity to waive or terminate the right of first refusal in consideration of any payment or fee.

Other

The underwriters and their affiliates may in the future provide various investment banking and other financial services for us, for which they may receive, in the future, customary fees.

Lock-Up Agreements

Pursuant to "lock-up" agreements, we and our executive officers, directors and greater than 5% stockholders, have agreed, subject to limited exceptions, without the prior written consent of the Representative not to directly or indirectly, offer to sell, sell, pledge or otherwise transfer or dispose of any of shares of (or enter into any transaction or device that is designed to, or could be expected to, result in the transfer or disposition by any person at any time in the future of) our common stock, enter into any swap or other derivatives transaction that transfers to another, in whole or in part, any of the economic benefits or risks of ownership of shares of our common stock, make any demand for or exercise any right or cause to be filed a registration statement, including any amendments thereto, with respect to the registration of any shares of common stock or securities convertible into or exercisable or exchangeable for common stock or any of our other securities or publicly disclose the intention to do any of the foregoing, subject to customary exceptions, for a period of 90 days from the date of this prospectus.

Listing

Our common stock is listed on the Nasdaq Capital Market under the symbol "BLIN."

Stabilization

In connection with this offering, the underwriters may engage in stabilizing transactions, over-allotment transactions, syndicate-covering transactions, penalty bids and purchases to cover positions created by short sales.

Stabilizing transactions permit bids to purchase shares so long as the stabilizing bids do not exceed a specified maximum, and are engaged in for the purpose of preventing or retarding a decline in the market price of the shares while the offering is in progress.

Over-allotment transactions involve sales by the underwriters of shares in excess of the number of shares the underwriters are obligated to purchase. This creates a syndicate short position which may be either a covered short position or a naked short position. In a covered short position, the number of shares over-allotted by the underwriters is not greater than the number of shares that they may purchase in the over-allotment option. In a naked short position, the number of shares involved is greater than the number of shares in the over-allotment option. The underwriters may close out any short position by exercising their over-allotment option and/or purchasing shares in the open market.

Syndicate covering transactions involve purchases of shares in the open market after the distribution has been completed in order to cover syndicate short positions. In determining the source of shares to close out the short position, the underwriters will consider, among other things, the price of shares available for purchase in the open market as compared with the price at which they may purchase shares through exercise of the over-allotment option. If the underwriters sell more shares than could be covered by exercise of the over-allotment option and, therefore, have a naked short position, the position can be closed out only by buying shares in the open market. A naked short position is more likely to be created if the underwriters are concerned that after pricing there could be downward pressure on the price of the shares in the open market that could adversely affect investors who purchase in the offering.

Penalty bids permit the representative to reclaim a selling concession from a syndicate member when the shares originally sold by that syndicate member are purchased in stabilizing or syndicate covering transactions to cover syndicate short positions.

These stabilizing transactions, syndicate covering transactions and penalty bids may have the effect of raising or maintaining the market price of our shares of common stock or preventing or retarding a decline in the market price of our shares of common stock. As a result, the price of our common stock in the open market may be higher than it would otherwise be in the absence of these transactions. Neither we nor the underwriters make any representation or prediction as to the effect that the transactions described above may have on the price of our common stock. These transactions may be effected in the over-the-counter market or otherwise and, if commenced, may be discontinued at any time.

Passive Market Making

In connection with this offering, underwriters and selling group members may engage in passive market making transactions in our common stock on the Nasdaq Capital Market in accordance with Rule 103 of Regulation M under the Exchange Act, during a period before the commencement of offers or sales of the shares and extending through the completion of the distribution. A passive market maker must display its bid at a price not in excess of the highest independent bid of that security. However, if all independent bids are lowered below the passive market maker's bid, then that bid must then be lowered when specified purchase limits are exceeded.

Indemnification

We have agreed to indemnify the underwriters against liabilities relating to this offering arising under the Securities Act and the Exchange Act, liabilities arising from breaches of some or all of the representations and warranties contained in the underwriting agreement, and to contribute to payments that the underwriters may be required to make for these liabilities.

Electronic Distribution

This prospectus in electronic format may be made available on websites or through other online services maintained by one or more of the underwriters, or by their affiliates. Other than this prospectus in electronic format, the information on any underwriter's website and any information contained in any other website maintained by an underwriter is not part of this prospectus or the registration statement of which this prospectus forms a part, has not been approved and/or endorsed by us or any underwriter in its capacity as underwriter, and should not be relied upon by investors.

For the purposes of this provision, the expression an “offer of securities to the public” in relation to any securities in any Relevant Member State means the communication in any form and by any means of sufficient information on the terms of the offer and securities to be offered so as to enable an investor to decide to purchase or subscribe securities, as the same may be varied in that Relevant Member State by any measure implementing the Prospectus Directive in that Relevant Member State and the expression “Prospectus Directive” means Directive 2003/71/EC (and amendments thereto, including the 2010 PD Amending Directive, to the extent implemented in the Relevant Member State), and includes any relevant implementing measure in each Relevant Member State and the expression “2010 PD Amending Directive” means Directive 2010/73/EU.

Item 14. Indemnification of Officers and Directors

Our amended and restated certificate of incorporation (“*Charter*”) and amended and restated bylaws (“*Bylaws*”) contain provisions relating to the limitation of liability and indemnification of directors and officers. Our Charter provides that a director will not be personally liable to us or our stockholders for monetary damages for breach of fiduciary duty as a director, except for liability:

- for any breach of the director’s duty of loyalty to us or our stockholders;
- for acts or omissions not in good faith or that involve intentional misconduct or a knowing violation of law;
- under Section 174 of the Delaware General Corporation Law (the “*DGCL*”); or
- for any transaction from which the director derived any improper personal benefit.

Our Charter also provides that we will indemnify our directors and officers to the fullest extent not prohibited by the DGCL, as it presently exists or may hereafter be amended.

Our Bylaws provide that we will indemnify our directors and officers to the fullest extent not prohibited by the DGCL; *provided, however*, that we may limit the extent of such indemnification by individual contracts with our directors and executive officers; and provided, further, that we are not required to indemnify any director or executive officer in connection with any proceeding (or part thereof) initiated by such person or any proceeding by such person against us or our directors, officers, employees or other agents unless:

- such indemnification is expressly required to be made by law;
- the proceeding was authorized by the Board of Directors; or
- such indemnification is provided by us, in our sole discretion, pursuant to the powers vested in us under the DGCL.

Our Bylaws provide that we shall advance, prior to the final disposition of any proceeding, promptly following request therefor, all expenses by any director or executive officer in connection with any such proceeding upon receipt of any undertaking by or on behalf of such person to repay said amounts if it should be determined ultimately that such person is not entitled to be indemnified under Article V of our Bylaws or otherwise. Notwithstanding the foregoing, unless otherwise determined, no advance shall be made by us if a determination is reasonably and promptly made by the Board of Directors by a majority vote of a quorum of directors who were not parties to the proceeding, or if such a quorum is not obtainable, or even if obtainable, a quorum of disinterested directors so

directs, by independent legal counsel in a written opinion, that the facts known to the decision-making party at the time such determination is made demonstrate clearly and convincingly that such person acted in bad faith or in a manner that such person did not believe to be in or not opposed to our best interests.

Our Bylaws also authorize us to purchase insurance on behalf of any person required or permitted to be indemnified pursuant to Article V of our Bylaws.

Section 145(a) of the DGCL authorizes a corporation to indemnify any person who was or is a party, or is threatened to be made a party, to a threatened, pending or completed action, suit or proceeding, whether civil, criminal, administrative or investigative (other than an action by or in the right of the corporation), by reason of the fact that the person is or was a director, officer, employee or agent of the corporation, or is or was serving at the request of the corporation as a director, officer, employee or agent of another corporation, partnership, joint venture, trust or other enterprise, against expenses (including attorneys' fees), judgments, fines and amounts paid in settlement actually and reasonably incurred by the person in connection with such action, suit or proceeding, if the person acted in good faith and in a manner the person reasonably believed to be in, or not opposed to, the best interests of the corporation and, with respect to any criminal action or proceeding, had no reasonable cause to believe the person's conduct was unlawful.

Section 145(b) of the DGCL provides in relevant part that a corporation may indemnify any person who was or is a party or is threatened to be made a party to any threatened, pending or completed action or suit by or in the right of the corporation to procure a judgment in its favor by reason of the fact that the person is or was a director, officer, employee or agent of the corporation, or is or was serving at the request of the corporation as a director, officer, employee or agent of another corporation, partnership, joint venture, trust or other enterprise against expenses (including attorneys' fees) actually and reasonably incurred by the person in connection with the defense or settlement of such action or suit if the person acted in good faith and in a manner the person reasonably believed to be in or not opposed to the best interests of the corporation and except that no indemnification shall be made in respect of any claim, issue or matter as to which such person shall have been adjudged to be liable to the corporation unless and only to the extent that the Court of Chancery or the court in which such action or suit was brought shall determine upon application that, despite the adjudication of liability but in view of all the circumstances of the case, such person is fairly and reasonably entitled to indemnity for such expenses which the Court of Chancery or such other court shall deem proper.

The DGCL also provides that indemnification under Section 145(d) can only be made upon a determination that indemnification of the present or former director, officer or employee or agent is proper in the circumstances because such person has met the applicable standard of conduct set forth in Section 145(a) and (b).

Section 145(g) of the DGCL also empowers a corporation to purchase and maintain insurance on behalf of any person who is or was a director, officer, employee or agent of the corporation, or is or was serving at the request of the corporation as a director, officer, employee or agent of another corporation, partnership, joint venture, trust or other enterprise against any liability asserted against such person and incurred by such person in any such capacity, or arising out of such person's status as such, whether or not the corporation would have the power to indemnify such person against such liability under Section 145 of the DGCL.

Section 102(b)(7) of the DGCL permits a corporation to provide for eliminating or limiting the personal liability of one of its directors for any monetary damages related to a breach of fiduciary duty as a director, as long as the corporation does not eliminate or limit the liability of a director for acts or omissions which (1) which breached the director's duty of loyalty to the corporation or its stockholders, (2) which were not in good faith or which involve intentional misconduct or knowing violation of law, (3) under Section 174 of the DGCL; or (4) from which the director derived an improper personal benefit.

We have obtained directors' and officers' insurance to cover our directors and officers for certain liabilities.

We plan to enter into an underwriting agreement, which provides that the underwriters are obligated, under some circumstances, to indemnify our directors, officers and controlling persons against specified liabilities, including liabilities under the Securities Act.

In addition, we entered into a registration right agreement with such purchasers to file a registration statement to register the shares of common stock issued as well as those shares of common stock underlying to the warrants that were issued to the purchasers. Our President and CEO and two of our directors purchased an aggregate of 78,740 shares of common stock in this private offering; however, these officers and directors waived their rights to participate in the registration statement.

Item 17. Undertakings

The undersigned registrant hereby undertakes to provide to the underwriters at the closing specified in the underwriting agreement certificates in such denominations and registered in such names as required by the underwriters to permit prompt delivery to each purchaser.

Insofar as indemnification for liabilities arising under the Securities Act may be permitted to directors, officers, and controlling persons of the registrant pursuant to the foregoing provisions, or otherwise, the registrant has been advised that in the opinion of the Securities and Exchange Commission such indemnification is against public policy as expressed in the Securities Act and is, therefore, unenforceable. In the event that a claim for indemnification against such liabilities (other than the payment by the registrant of expenses incurred or paid by a director, officer or controlling person of the registrant in the successful defense of any action, suit or proceeding) is asserted by such director, officer or controlling person in connection with the securities being registered, the registrant will, unless in the opinion of its counsel the matter has been settled by controlling precedent, submit to a court of appropriate jurisdiction the question whether such indemnification by it is against public policy as expressed in the Securities Act and will be governed by the final adjudication of such issue.

The undersigned registrant hereby undertakes:

- (1) To file, during any period in which offers or sales are being made, a post-effective amendment to this registration statement:
 - (i) To include any prospectus required by Section 10(a)(3) of the Securities Act;
 - (ii) To reflect in the prospectus any facts or events arising after the effective date of the registration statement (or the most recent post-effective amendment thereof) which, individually or in the aggregate, represent a fundamental change in the information set forth in the registration statement. Notwithstanding the foregoing, any increase or decrease in volume of securities offered (if the total dollar value of securities offered would not exceed that which was registered) and any deviation from the low or high end of the estimated maximum offering range may be reflected in the form of prospectus filed with the Commission pursuant to Rule 424(b) if, in the aggregate, the changes in volume and price represent no more than 20 percent change in the maximum aggregate offering price set forth in the "Calculation of Registration Fee" table in the effective registration statement;
 - (iii) To include any material information with respect to the plan of distribution not previously disclosed in the registration statement or any material change to such information in the registration statement;
- (2) That, for the purpose of determining any liability under the Securities Act, each such post-effective amendment shall be deemed to be a new registration statement relating to the securities offered therein, and the offering of such securities at that time shall be deemed to be the initial bona fide offering thereof.
- (3) To remove from registration by means of a post-effective amendment any of the securities being registered which remain unsold at the termination of the offering.
- (4) That, for the purpose of determining liability of the registrant under the Securities Act to any purchaser in the initial distribution of the securities:

The undersigned registrant undertakes that in a primary offering of securities of the undersigned registrant pursuant to this registration statement, regardless of the underwriting method used to sell the securities to the purchaser, if the securities are offered or sold to such purchaser by means of any of the following communications, the undersigned registrant will be a seller to the purchaser and will be considered to offer or sell such securities to such purchaser:

- (i) Any preliminary prospectus or prospectus of the undersigned registrant relating to the offering required to be filed pursuant to Rule 424;
- (ii) Any free writing prospectus relating to the offering prepared by or on behalf of the undersigned registrant or used or referred to by the undersigned registrant;
- (iii) The portion of any other free writing prospectus relating to the offering containing material information about the undersigned registrant or its securities provided by or on behalf of the undersigned registrant; and
- (iv) Any other communication that is an offer in the offering made by the undersigned registrant to the purchaser.

The undersigned registrant hereby undertakes that, for purposes of determining any liability under the Securities Act, each filing of the registrant's annual report pursuant to section 13(a) or section 15(d) of the Securities Exchange Act of 1934 (and, where applicable, each filing of an employee benefit plan's annual report pursuant to section 15(d) of the Securities Exchange Act of 1934) that is incorporated by reference in the registration statement shall be deemed to be a new registration statement relating to the securities offered therein, and the offering of such securities at that time shall be deemed to be the initial *bona fide* offering thereof.

The undersigned registrant hereby undertakes to deliver or cause to be delivered with the prospectus, to each person to whom the prospectus is sent or given, the latest annual report, to securityholders that is incorporated by reference in the prospectus and furnished pursuant to and meeting the requirements of Rule 14a-3 or Rule 14c-3 under the Securities Exchange Act of 1934; and, where interim financial information required to be presented by Article 3 of Regulation S-X is not set forth in the prospectus, to deliver, or cause to be delivered to each person to whom the prospectus is sent or given, the latest quarterly report that is specifically incorporated by reference in the prospectus to provide such interim financial information.

The registrant hereby further undertakes that:

(1) For purposes of determining any liability under the Securities Act, the information omitted from the form of prospectus filed as part of this registration statement in reliance upon Rule 430A and contained in a form of prospectus filed by the registrant pursuant to Rule 424(b)(1) or (4) or 497(h) under the Securities Act shall be deemed to be part of this registration statement as of the time it was declared effective.

(2) For the purpose of determining any liability under the Securities Act, each post-effective amendment that contains a form of prospectus shall be deemed to be a new registration statement relating to the securities offered therein, and the offering of these securities at that time shall be deemed to be the initial *bona fide* offering thereof.
